### Cross-center Regional Indian Education Collaborative:
*Moving Research into Practice in Indian Country*
June 4, 2015

#### Questions

In reflecting on improving academic achievement for American Indian students...

- What areas of research and best practice would be of greatest benefit to districts and schools in your state or region?
- How might these be initiated or enhanced?

In reflecting on improving academic achievement for American Indian students...

- What are the main challenges your state or region faces in implementing best practices?
- How might these challenges be overcome?

In reflecting on improving academic achievement for American Indian students...

- What professional learning and resources would be needed to encourage and support implementation of best practices?
- Consider the region, state, district, building, and classroom levels.

In reflecting on improving academic achievement for American Indian students...

- What areas of research and best practice would you like to see our Cross-center Collaborative study more in the future?
- How might we support one another in this endeavor?
